Community Transportation Needs Assessment – Resident Survey

[Organization] is conducting a transportation needs assessment survey to hear from [City/Community] residents on their current travel behavior and preferences for future transportation enhancements and projects. This survey is an effort to improve transportation options in [city/community].

Please answer the following questions about your personal and household transportation needs. This survey takes about [xx] minutes to complete, and all personally-identifiable information will be confidential. You are free to skip questions you do not feel comfortable answering.

This survey is adapted from a template developed through the State of California's Clean Mobility Options Voucher Pilot Program (CMO) which provides funding for under-resourced communities in California to conduct community transportation needs assessments and implement zero-emission shared mobility projects to increase access to safe, reliable, convenient, and affordable transportation options. CMO is part of California Climate Investments, a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities.

Consent:

I understand the purpose of the survey and that all my information will be held confidential. I also understand I am free to stop at any time and skip any questions I am not comfortable answering. To request that your personal information be deleted, contact [Organization Contact].
